

Product Discontinuation Notice

InspeXion 6.x

July 22, 2014

Re: InspeXion 6.x

InspeXion 6.x test software was used on Sciometric systems such as the Model 298, sigPOD and 300 Series has not been shipped from the factory since 2010 except by special order. This product is no longer be available for delivery and support for bug fixes will end effective August 31, 2014. Technical support will be available on a best effort basis until August 31, 2015.

Customers may, at their discretion, choose to purchase and migrate to the latest, fully supported version of the test software which is InspeXion 7. Please note that older Sciometric systems may not be able to support the new version without a hardware upgrade and application software will also require upgrading.
